Subject	KU-17LZ21 Micom Change Guide							

No.	Loc No.	Before Change		After Change		Note	K-Code	Remark
		Part No	DESC./SPEC.	Part No	DESC./SPEC.			

Reason Of Change

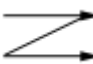

Problem : At maximum volume selection DVD audio level is low but other modes ok.
 Solution : Compared the audio level of DVD mode with other modes and now all modes Audio level at maximum volume is same. So firmware updated and Micom is changed.

If Earlier Version is less than 3.10 then use firmware version V0.01 else V3.14. For detailed description how to change and check the version refer to the Power Point file attached (KU-17LZ21_Micom_Change_Guide.ppt).

NOTE: Please check the H-DELAY and CSM data as explained in the file for fine adjustments (only for version V3.14).
